

CAREERS AT DAME ELIZABETH CADBURY

KEY STAGES 3 AND 4

At Dame Elizabeth Cadbury School, high quality and impartial careers guidance will help pupils to make informed choices about which courses suit their academic needs and aspirations. They will be prepared for the next stage of their education, employment, self-employment or training.

(Alignment to page 57 of Ofsted inspection handbook 2018)

KEY STAGE 5

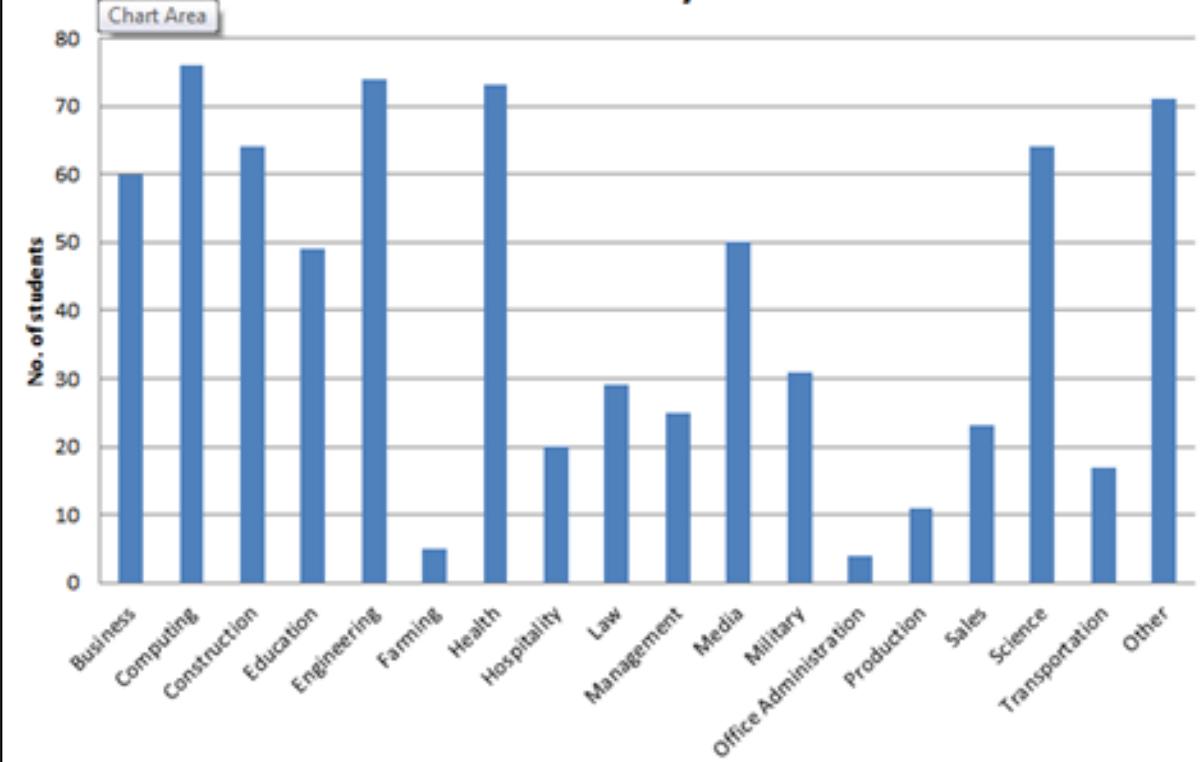

In Dame Elizabeth Cadbury Sixth Form learners will receive high quality impartial careers guidance that prepares them for their chosen next steps and enables them to make well-informed decisions about their future plans.

(Alignment to page 70 of Ofsted inspection handbook 2018)

The Gatsby benchmarks set out a framework for schools to deliver 'good careers guidance' to their pupils. The benchmarks below are fully implemented into our strategy:

1. A stable careers programme	Every school should have an embedded programme of career education and guidance that is known and understood by students, parents, teachers, governors and employers.
2. Learning from career and labour market information	Every student, and their parents, should have access to good quality information about future study options and labour market opportunities. They will need the support of an informed adviser to make best use of available information.
3. Addressing the needs of each student	Students have different career guidance needs at different stages. Opportunities for advice and support need to be tailored to the needs of each student. A school's careers programme should embed equality and diversity considerations throughout.
4. Linking curriculum learning to careers	All teachers should link curriculum learning with careers. STEM subject teachers should highlight the relevance of STEM subjects for a wide range of future career paths.
5. Encounters with employers and employees	Every student should have multiple opportunities to learn from employers about work, employment and the skills that are valued in the workplace. This can be through a range of enrichment activities, including visiting speakers, mentoring and enterprise schemes.
6. Experiences of workplaces	Every student should have first-hand experiences of the workplace through work visits, work shadowing and/or work experience to help their exploration of career opportunities and to expand their networks.
7. Encounters with further and higher education	All students should understand the full range of learning opportunities that are available to them. This includes both academic and vocational routes and learning in schools, colleges, universities and in the workplace.
8. Personal guidance	Every student should have opportunities for guidance interviews with a Careers Adviser, who could be internal (a member of school staff) or external, provided they are trained to an appropriate level. These should be available whenever significant study or career choices are being made.

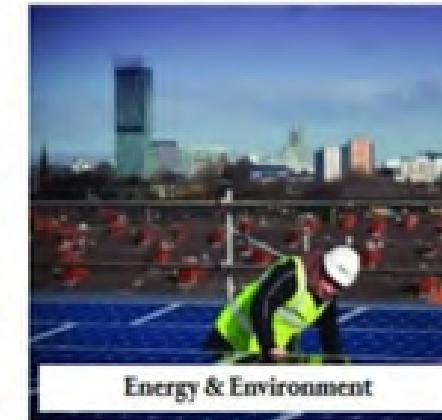

The most popular careers that our pupils aspire to work in from the student survey conducted 2018-2019

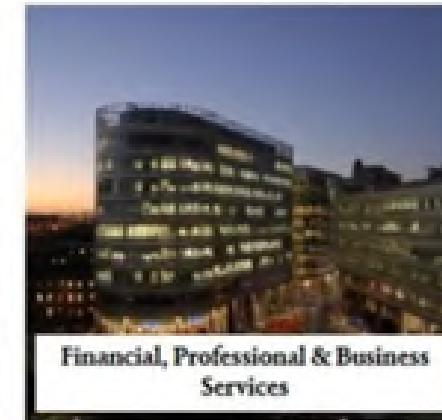

The 6 sectors that are shown below are described as 'thriving' within the West Midlands. We have implemented exposure to employers from these areas into our strategy. This involves key note speakers from existing employment and off-site visits to companies and industries.

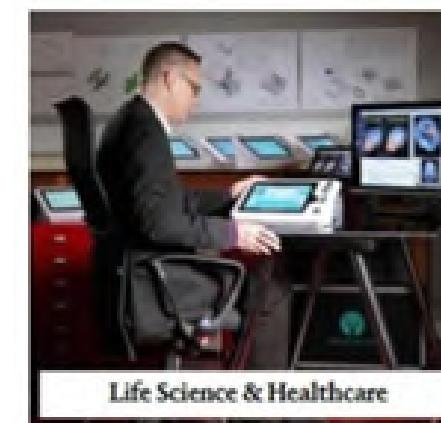

Creative, Digital & Technology

Energy & Environment

Financial, Professional & Business Services

Life Science & Healthcare

Logistics

Advanced Manufacturing
